

# Metered Hand Pumps Pail and Drum Pumps

## Start to Finish in Less than 2 Minutes !

Ride-On (TPS) calibrated hand pumps and tools are designed to the highest engineering standards to allow a user to easily pump Ride-On TPS tyre sealants against pressures of up to 60 psi. Each hand pump is calibrated to pump from one to ten ounces of Ride-On TPS per stroke, and allows the installer to adjust the volume in one ounce increments. When installed during mount-up, you can treat a truck tyre with Ride-On in less than 2 minutes.

### Features

- **Six feet of reinforced hose** – Withstands pressures up to 300 psi and allows for mobility and reach. Drum pumps are supplied with ten feet of hose.
- **Quick connect chuck** – Allows the pump hose to be attached to the valve securely without the need to deflate the tyre.
- **Built to last** – Hand pumps have anodized aluminium bodies, stainless steel ball check valves, and special internally lubricated o-rings for smoother operation, heavy duty nylon handles and pistons and aluminium pump shafts for years of trouble free service.
- **Easy to maintain** – Hand pumps have been designed to be easily dismantled for cleaning and servicing without the need for tools.
- **Optional tool kit** – Everything needed to install Ride-On TPS in single or double wheel axles is included with the optional pump tool kit. The tool kit is supplied with 2 valve core tools, 2 injector adapter tools and a 40 page “Dosage Chart and Installation Manual”.
- **Tool Kit** – The optional tool kit is available with our 5-gallon drum or 55-gallon drum hand pumps

Optional Tool Kit

## A REPUTATION YOU CAN “Ride-On™”

Ride-On™ has earned its reputation by providing the most advanced tyre sealing solutions to commercial and professional fleets. Ride-On™ TPS is currently used in more than 250,000 applications counties, government agencies and commercial fleets around the world.

*Ride-On™ TPS is available in formulations for every tyre application. Try our Heavy Duty off Road (HDOTR™) sealant for off-road equipment travelling at speeds less than 30mph. Ride-On™ TPS is also available for Motorcycle and Bicycle applications.*
